

UNDER CONSTRUCTION

Ayala to close temporarily south of Easton

Ayala Drive will be closed south of Easton Street for continued work on the Cactus Channel storm drain system, starting June 1. This work will require the full closure of Ayala to motorists and pedestrians for about two months.

Drivers traveling north on Ayala will be directed at Baseline to Cactus Avenue during the construction period. Southbound drivers already have been diverted to Cactus, due to ongoing construction of the Ayala bridge.

Crews will be working across Ayala Drive in June and July to connect the Cactus Channel storm drain, above.

East and west travel will be maintained, but drivers will not be able to turn onto Ayala from Easton. Trucks delivering to businesses near Ayala and Easton may use Fitzgerald.

The work will involve excavating across Ayala to build a connection between the new storm drain channel and the basins in which water will empty. Construction is expected to be completed in July.

Highland to be partially closed, June 11-13

One lane on Highland Avenue will be closed the weekend of June 11 for utility work.

Caltrans will close one westbound lane on Highland between Riverside and Acacia, starting at 9 p.m. on Friday. The lane will reopen by 5 a.m. on Monday.

Crews will be relocating West Valley Water District and City of Rialto water lines for the Route 210 project.

Sierra Avenue freeway ramps to change this summer

Drivers who use the Sierra Avenue ramps at Route 210 will see a change in the way they enter and exit the freeway this summer.

Currently, motorists enter the freeway using ramps directly from Highland Avenue. Caltrans will be paving in this area through the summer to provide the connection to the future freeway lanes, so this direct access will not be possible, and a detour will be established. Motorists should watch for signs.

Starting June 14, drivers will exit the freeway using a new ramp that leads south on Sierra Avenue. Drivers then can turn east on South Highland Avenue, which reconnects with Highland Avenue and Easton Street.

In addition, drivers may enter the freeway by using a circular ramp at Sierra. Casmalia Street in this area also can be used for east-west access to Sierra.

SANBAG offices on the move

San Bernardino Associated Governments (SANBAG) will have a new home on June 21.

SANBAG is moving to the second story of the Santa Fe Depot at 1170 W. Third Street in San Bernardino. Phone numbers will not change.

The Route 210 office in Rialto will not be affected by the move.

To add or remove your name from the Under Construction email list, please send your request to cdonahue@sanbag.ca.gov or call 1-866-HELP-210. This bulletin is a feature of the Route 210 Public Information and Safety Program. **Safety, It's No Accident!**
